These in-ear headphones use Bluetooth technology to connect the left and right earbuds, eliminating the need for any wires at all. Bluetooth technology is also used to pair the headphones to any compatible device in order to stream high-quality digital audio from up to 30' away. To ensure a comfortable, secure fit, the SoundSport Free headphones use Bose's proprietary StayHear+ Sport tips. These ear tips come in three different sizes and are specially designed to conform to your natural ear shape, meaning they'll stay put during the most strenuous activities. In addition to music, the SoundSport Free headphones also feature a built-in mic that allows you to make hands-free calls from your smart device. Because there are no wires, playback and volume controls are conveniently located directly on the earbuds. The headphones are rated IPX4 to be both sweat- and water-resistant, so you can work out with them rain or shine. Their lithium-ion battery is rechargeable via the included charging case, and will provide up to five hours of music or talk time. Tilt the earbud back and tuck the tip wing under the ear ridge until it is secure. Change the StayHear®+ Sport tips Holding the earbud, gently grasp the attached StayHear+ Sport tip and peel it away from the earbud. Align the opening of the new StayHear+ Sport tip with the earbud nozzle and rotate the tip onto the nozzle, then press the base of the tip until it clicks securely into place. Charge the headphones Align the charging pins on the left earbud with the charging pins on the left side of the case. Place the earbud in the case until it magnetically snaps into place, and the left charging indicator blinks white. Repeat steps 1 - 2 to charge the right earbud. Reconnect a mobile device stored in the headphone pairing list Press the Bluetooth button to hear which mobile device is connected. Press the Bluetooth button again within three seconds to connect to the next mobile device in the headphone pairing list. Repeat until you hear the correct mobile device name. Play audio on the connected mobile device. Common solutions Headphones don't power on Place the headphones in the charging case to initiate charging. Make sure the headphones are not in standby mode. To wake the headphones, press the Bluetooth button on the left earbud and press any button on the right earbud. Headphones don't charge Make sure the headphones are properly placed in the charging case (see page 19). Make sure the charging case battery is not depleted (see page 24). Make sure there is no dirt or debris covering the charging conductors within the case or on the earbuds. If your headphones have been exposed to high or low temperatures, let the headphones return to room temperature and then try charging again. No sound Press play on your mobile device to make sure the audio track is playing. Place the headphones in the charging case to check the headphone charging status (see page 25). Increase the volume on the headphones and mobile device Press the Bluetooth button to hear the connected mobile device. Make sure you are using the correct device. Move your mobile device closer to the headphones (30 ft. or 9 m) and away from any interference or obstructions. Use a different music source. Connect a different mobile device (see page 30). Poor sound quality Make sure that both headphones fit securely in your ear (see page 17). Use a different music source. Try connecting another mobile device (see page 30). Move your mobile device closer to the headphones (30 ft. or 9 m) and away from any interference or obstructions. Clear any debris or wax buildup from the earbuds and headphone nozzles. Make sure your headphones are connected over the correct Bluetooth profile: Stereo A2DP. Check your device's Bluetooth/audio settings menu to make sure the correct profile is selected.
